Product information

Color:	black
Material:	Leather

Sergio Grasso's riding boots are very popular among all riders as an all-around choice.
The boot is made of genuine Nappa calfskin. The Ultratech lining provides perfect grip on the saddle. Thanks to the lacing at the front and the reinforced elastic inserts next to the zipper, the boot fits perfectly around the rider’s calf. The shaft is cut high. Additionally, this boot features a ProComf sole, a zipper guard, and a spur holder.
Nappa leather is one of the most popular materials used in the manufacture of leather garments. It is a particularly soft, smooth leather derived from various animal species. Depending on the surface treatment applied before processing, nappa leather exhibits different properties afterward.
