Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Material:	Plastic
Size of the bit:	13.5 cm
Thick bridle:	20 mm

The Trust Olive-Head Bit, made from the high-quality "Inno Sense" material, is a true innovation in bits.
The olive-head bit is ideal for almost any horse; thanks to its smaller, oval rings, it is slightly sharper than a water bit and provides more control over the horse’s mouth. The oval shape of the rings offers additional lateral control.
Material: Trust’s Inno Sense bits are available in three different versions: soft, medium, and hard. The mouthpieces are available in Flexi and tongue-bow (Port) styles.
Bits from the Inno Sense line can be used for all horses and are particularly suitable for young horses and/or horses with sensitive

Product information

mouths. The plastic used has been deemed safe by the U.S. Food and Drug Administration (FDA), meaning the material contains no plasticizers and is not harmful to humans or animals. The Flexi variants of the Inno Sense bit line are particularly durable thanks to the use of a stainless steel core. Using an Inno Sense bit fosters a trusting, supple connection between the horse’s mouth and the rider’s hand. - This is particularly helpful for horses that resist the rider’s hand.
