Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Meralino Shine is a high-quality horse grooming spray for the mane, tail, and coat, formulated with microsilicone oil emulsions. The formula enhances shine, makes combing significantly easier, and provides a noticeable dust- and dirt-repellent effect. The finish looks well-groomed and natural, without appearing artificial.

When used daily, the care formula impresses with its long-lasting effect that lasts for several days. The mane and tail become smoother, knots are easier to untangle, and the hair gains additional volume. Especially with regular use, the product effectively complements a horse’s well-groomed appearance.

With dermatological testing rating its tolerability as “very good,” **Meralino Shine** is also a suitable choice for horses with sensitive skin. The spray thus combines visible grooming results with a pleasantly easy application and a professional grooming experience as part of daily stable care.
