Color: silver

The new bracelets from the SPRENGER & ME collection are here! Inspired by our dog collars, we now offer matching bracelets for dog owners in a two-row design, featuring the quality you've come to expect from Sprenger. The two metal plates at the ends of the two-row bracelet feature Sprenger logos on one side. The clasp with the whale fin is simply pulled through the eyelet and twisted, so it can't open on its own. If this length is too long for you, you can also pull the clasp through the second eyelet to make it shorter. The timeless look goes with any outfit and, thanks to the high-quality material (stainless steel), is durable enough to accompany you through your everyday life—whether at the stable, on dog walks, or at the office. Presented in high-quality packaging, these bracelets make the perfect gift for dog lovers and Sprenger fans.
