Currently out of stock.

Size of the bit:	13.5 cm
Thick bridle:	20 mm

The bits from the Inno Sense collection can be used for all horses, but are particularly suitable for ponies, young horses, and horses with sensitive or small mouths. The plastic used is FDA-approved, which means it is non-toxic and contains no plasticizers. Inno Sense bits are available with 4 different mouthpieces that can be combined with all cheek pieces. Horses ridden with an Inno Sense mouthpiece follow the rider’s hand easily and quickly accept the bit.Note: Since the material is soft, signs of wear from the horse’s teeth may occur. These do not constitute a quality defect.
