Color:	brown
Size of Riding Gloves:	8

Classic in style, sporty and functional, and modern in design: Style-conscious riders will love the lightweight and exceptionally elegant MALAGA. The upper is made from the exclusive SUPREMA by ROECKL material—a supple and breathable synthetic fabric that’s exceptionally comfortable to wear and virtually indistinguishable from nappa leather in both appearance and feel. Perforations on the fingers further enhance breathability. The palm, made of ROECK-AIR, is just as supple and takes breathability to the next level. In addition, ROECK-AIR offers wonderful tactile sensitivity—almost like a second skin—and gives the glove an exceptionally fine sense of touch on the reins. The exclusive COMFORT-CUT design ensures a sleek silhouette and high comfort. The MALAGA’s slim, form-fitting cut, exquisite material, and elegant design are complemented by a Velcro strap at the wrist that perfects the fit, featuring the stylized ROECKL hand logo as a rivet that adds a fashionable touch. By the way, the entire palm is TOUCHSCREEN

Product information

COMPATIBLE, so you can comfortably operate your smartphone and other devices while wearing the gloves.
