Color:	black
Horse Size:	Full

WEATHERBEETA DELUXE Shoulder Pad, black, Full combines functional protection with a comfortably lightweight feel. Designed for use under blankets, this shoulder protector reliably reduces friction on the shoulders and withers. The quilted material fits comfortably and ensures a secure fit without adding unnecessary bulk.

The practical over-the-head design makes it easy to put on the shoulder protector. The **Full** size is designed for larger horses, and the classic **black** color blends discreetly with existing blanket gear. Easy handling is particularly advantageous in daily stable routines, as the shoulder protector is quickly ready for use and can be removed just as easily.

Product information

This model serves as a functional addition for horses whose blankets may chafe against sensitive areas such as the shoulders and withers. The low-maintenance design allows for easy washing at **30 °C**, making it practical for regular use.

- **Protection against chafing** in the shoulder and withers area
- **Quilted fabric structure** for a comfortable fit under the blanket
- **Easy to put on** thanks to the over-the-head design
- **Easy to care for** and washable at 30 °C
- **Color:** black
- **Size:** Full

As **a** well-designed **leg guard** from **WEATHERBEETA**, this model combines functionality, comfort, and a clean, minimalist look. A perfect solution for protecting sensitive areas under the horse blanket.
