Product information

Color: black

The versatile Streamline Close Contact Show Jumping Correction Pad is designed to compensate for slight imbalances between the saddle and the horse. It is ideal, for example, when using one saddle on different horses.
The four foam inserts can be inserted separately into the designated pockets of the correction pad to raise the saddle at the appropriate point. The 7-mm-thick foam inserts ensure a smooth transition.
The Streamline Correction Pad comes with a saddle component that ensures a stable connection between the saddle pad and the saddle, thereby preventing slipping and friction.
The correction pad features a soft velour edging, a stylish piping, reinforced girth and tack channel areas, and adjustable snap-button fasteners on the girth rings.
The package includes a saddle component and four foam inserts. If additional foam inserts are needed, they can easily be purchased separately at a later time.
Information about the white saddle pad: To prevent stains and achieve optimal washing results, we've used a poly-cotton trim instead of velour on the white saddle pads.
Material
composition: Outer material: 70% cotton, 30% polyester
; Filling: 100% polyester
; Insert: 100% foam
; Size: One size
