Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Exceptional craftsmanship, a sustainable design, and top-notch functionality—that’s the NAROMI, a completely seamless winter glove that’s extremely comfortable for leisurely strolls through the snow.

Product information

It’s made entirely from Eco Mix yarn.

No wonder, then, that it bears the “High Recycling Ratio” label for its high proportion of resource-conserving materials.

The waterproof, windproof, and highly breathable ROECK-TEX MEMBRANE, combined with a soft Eco knit lining, ensures reliable weather protection on the go.

This keeps your hands dry and warm at all times.

The generous SILICONE-GRIP on the palm, thumb, index finger, and ring finger provides a reliable grip—handy when handling a dog leash, a rope, or other gear.

In addition, the glove is TOUCHSCREEN-COMPATIBLE, so you don’t have to take it off to use your smartphone.

With its long, slim fit, it fits like a second skin, protects the sensitive wrist area, and tucks effortlessly under your jacket sleeve without adding bulk.

The all-black design is complemented by reflective details and logo appliqués—for a modern look.

And since working with dogs and horses usually takes its toll, the NAROMI can be machine-washed at 30 degrees.

Made without leather and available in sizes XS through XL.
