Color: black

WEATHERBEETA DELUXE Shoulder Pads are thoughtfully designed **shoulder pads for horses**, engineered for comfort and functionality in everyday use. The quilted design helps reduce friction caused by blankets in the shoulder and withers areas and contributes to a comfortable fit under the blanket. The **black** model combines a subtle look with practical construction and is suitable for use in the stable, paddock, or during extended wear.

The shoulder guard can be easily pulled over the horse’s head and fits snugly without adding unnecessary bulk. This creates a comfortable fit that does not restrict movement and provides targeted protection for the shoulder and withers. The low-maintenance design makes everyday cleaning easy, as the material is machine washable at 30°.

Product information

Depending on the horse’s build, sizes **Cob**, **Full**, and **XL** are available. This allows you to select the shoulder protector that best fits the horse’s individual build. As a complement to a horse blanket, this accessory offers a functional solution for greater comfort and a clean, unobtrusive fit.
