Versatile and extremely flexible—that's the WELDON. Convenient: This all-around glove is **TOUCHSCREEN COMPATIBLE**, so you can answer calls on your smartphone without taking off the glove. The thumb and index finger feature an elaborate **3D cut** designed to enable quick and easy touchscreen operation without compromising comfort. The glove also impresses equestrians with its slim fit. The ROECKL-exclusive COMFORT CUT—a particularly comfortable cut—eliminates the need for a thumb loop. The back and palm are made from **warm**, **soft,** and exceptionally **stretchy** Polartec® **Power Stretch®** Pro. An extra-heavyweight fabric is used for added warmth. The outer seams provide an additional boost in comfort and grip. Both practical and stylish: the palm,

Product information

elaborately silicone-coated with countless ROECKL logos, offers **a perfect grip** on the reins. The area between the ring finger and little finger has also been silicone-coated. The red silicone pull tab makes it easier to put on the gloves, and the reflective design elements round out the well-thought-out features.
