17,95CHF

incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Product information

Step 1: Effectively cleans the leather.
Dirt, grease, and sweat are effortlessly removed. There’s no need to scrub before conditioning. Step 1 loosens stubborn grease, sweat, and dirt so you can easily wipe away the residue. The pH-neutral formula does not damage the seams or unnecessarily dry out the leather. Belvoir Tack Cleaner hygienically cleans leather equipment and leaves the surface ready for immediate application of a conditioning soap or conditioning oil.

Directions: Spray directly onto the leather and wipe clean. For stubborn grease, let it sit for about 5 minutes. If mold is present, make sure not to reuse the cloth and dispose of it separately from other leather items. Can also be used on synthetic leather.

Test on a hidden area before use; results are visible immediately
