CellaVie® Dog BarfPlus Powder
Cell Nutrition. Dietary supplement for dogs

Brief Descriptions

The perfect complement to any BARF meal: CellaVie® Dog BarfPlus Powder fills nutritional gaps in raw feeding. With valuable herbs, vitamins, and regenerative nucleotides, it supports a healthy intestinal lining, optimizes nutrient absorption, and ensures a vibrant life for your dog with a shiny coat.

CellaVie® Dog BarfPlus Powder: The perfect finishing touch for every BARF meal

Biologically Appropriate Raw Feeding (BARF) is a wonderful way to feed your dog a natural diet. However, for this diet to be truly healthy, the meal must be optimally balanced to prevent nutrient deficiencies. The digestive system and the immune system, in particular, require essential vitamins, minerals, and trace elements daily to function optimally.

CellaVie® Dog BarfPlus Powder is the well-thought-out, complete solution for your BARF meals. It combines high-quality natural herbs such as stinging nettle and moringa with important prebiotic fibers (MOS & FOS) and a concentrated dose of essential vitamins and trace elements.

At the heart of this formula, however, are Cell-K30-Nutrition® nucleotides. These essential DNA building blocks are particularly important for tissues that regenerate quickly, such as the intestinal mucosa. They regenerate the intestinal barrier, promote a stable microbiome, and ensure that the valuable nutrients from the fresh meat can be efficiently absorbed by the body. The ideal foundation for a strong immune system, inner balance, and a long, healthy life for your dog.

5 reasons why CellaVie® Dog BARFPlus Powder is good for your dog:

- **Optimal BARF supplement:** Provides all the essential vitamins, minerals, and trace elements that are often missing in a pure meat diet and prevents deficiency symptoms.
- **Promotes healthy gut flora:** Selected prebiotics (MOS, FOS) and psyllium support a stable microbiome and regular digestion.
- **Maximum nutrient absorption:** Nucleotides regenerate the intestinal mucosa, allowing nutrients from the food to be utilized much more efficiently.
- **Strengthens the immune system:** A healthy intestinal barrier and targeted cell renewal form the foundation for strong defenses and greater resilience.
- **Promotes vitality and a lustrous coat:** The rich combination of natural herbs, vitamins, and nutrient-rich krill ensures a radiant, healthy coat and noticeable well-being.

Composition & Analytical Constituents

Composition: Krill, Cell-K30-Nutrition® nucleotides (8%), stinging nettle, psyllium, moringa, rosehip, dandelion, eggshell powder, oregano, MOS, FOS.

Analytical Constituents:

- Crude protein: 19.91%
- Crude fat: 6.14%
- Crude Fiber: 2.85%
- Crude ash: 4.95%

Nutritional additives per kg: Vitamin A 414,400 IU, Vitamin D-3 79,500 IU, Vitamin E 4,250 mg, Vitamin K 113 mg, Vitamin B-1 209.5 mg, Vitamin B-2 252 mg, Vitamin B-6 185.5 mg, Vitamin B-12 21,500 mcg, Niacin 1,805 mg, Calcium Pantothenate 915 mg, Folic Acid 47.5 mg, biotin 16.5 mg, vitamin C 3,666.5 mg, choline chloride 60,416.5 mg, iron 2,933.5 mg, copper 880 mg, zinc 4,983.5 mg, iodine 51.5 mg, manganese 806.5 mg, selenium 5 mg, L-carnitine 17,675 mg.

Feeding Recommendations & Usage

Recommended daily feeding amount: 1 measuring spoon per 5 kg of body weight.

Product information

Usage: Simply mix the powder into the food.

Tip for BARF feeders: The powder can be mixed in dry or moistened with a little water to help it adhere to the raw meat.

Special Note: Please always provide your dog with plenty of fresh water.

Storage: Store in a cool, dry place away from light.
