54,25CHF

incl. 2,6% VAT plus Shipping

Currently out of stock.

Sizes of Herbs: 1 kg

CHLORELLA — THE GREEN SUPERALGAE

The name “Chlorella” is derived from two Latin words that literally mean “leaf green.” This refers to its unusually high chlorophyll content. Chlorella is the plant with the highest chlorophyll content of any plant. In addition to chlorophyll, chlorella also contains numerous vitamins, minerals, dietary fiber, nucleic acids, amino acids, enzymes, CGF (Chlorella Growth Factor), and other substances of the highest biological value.

Nutritional Properties

Product information

: - An extremely highly concentrated complex of vitamins, minerals, and amino acids.
- Chlorophyll and magnesium support cardiovascular health.
- Contains natural digestive enzymes
.- Supports muscle building
.- Aids in the elimination of heavy metals and other toxins
.- Supports the immune system
.- It cleanses the intestines, kidneys, liver, and bloodstream.
- Detoxifies the entire body
.- High-quality vitamin B12
.- Excellent for treating cracked hooves.

The particular significance of this freshwater algae lies primarily in its provision of numerous micronutrients for strengthening and optimizing metabolism and the immune system. A particular highlight—especially in competitive equestrian sports—is the Chlorella Growth Factor (CGF), which supports and accelerates muscle regeneration and has positive effects on healing following injuries or veterinary procedures.

Horse owners also value the microalgae’s antioxidant properties and its ability to help eliminate harmful substances and toxins.
