Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Container Size: 6 kg

FREY HORSE DYNAMIC BASIC PLUS is optimized for the needs of horses that are regularly engaged in moderate-intensity work and/or horses that are prone to sensitivity and deficiency symptoms in their skin, hooves, and coat. It promotes digestibility as well as the natural development of the skin, hooves, and coat.

Regular supplementation with Horse Dynamic +Biotin ensures healthy growth, supports the regeneration of blood, bones, and teeth, and promotes the development of muscle and nerve tissue. The effects become apparent quickly, resulting in increased willingness to perform and a glossy coat.

Horse Dynamic +Biotin

Product information

- - contains a balanced blend of selected minerals, vitamins, and amino acids for a healthy diet.
- - contains active ingredients with high bioavailability for horses.
- - Thanks to its balanced blend of water-soluble vitamins, it promotes optimal overall health.
