Color: brown

HB Classic Body-Move-Pad Comfort-Line, Dressage
The new generation of premium saddle pads: the new Body-Move-Pad Comfort-Line (made in Germany by st-eb) ensures optimal pressure distribution and largely compensates for fit issues between the saddle and the horse’s back. The underside is made of a special fleece-like material similar to sheepskin, but it absorbs moisture and heat well and provides a more slip-resistant surface. This creates more room for movement and muscle development.

- Perfect pressure relief without losing contact with the horse.
- Thanks to the special quilting with a close-contact effect in the thigh area, the pad supports a secure seat and good thigh placement close to the horse.
- Absolute slip resistance thanks to the innovative fleece material made from wood on the underside.
- Helps decouple the saddle better during turns, resulting in improved flexion and responsiveness during turns.
- Also very well suited for very round horses without a withers.
- Our Body-Move Pad Comfort-Line JUMPING is also ideal for the Maxflex “CARLOS CARNEIRO PT” Working Saddle

Available specifically for Icelandic horses and ponies, as well as in Dressage, Dressage XL, and Jumping versions. For compact saddles, especially for short, Iberian horses, we recommend our Dressage-Working model
The advantages at a glance:

- Long-lasting pressure elasticity
- Gentle on the horse’s muscles thanks to its anatomical cut
- Sheepskin-like effect Supports muscle development
- Optimal climate comfort
- Perfect moisture regulation—less sweating
- Special quilting for closer contact with the horse, even with the thigh
- Good isolation of the saddle
- Extremely abrasion-resistant and colorfast
- Easy to care for; machine washable up to 60 degrees; do not spin dry
